

DryShield® vs Zyris / Isolite

ANNUAL COST COMPARISON: 1 OPERATORY & 1,000 PROCEDURES
Typical patients annually per private practice, including hygienist appointments

 DryShield®		Zyris / Isolite
DryShield System	\$500	Isodry System \$1,295+
Autoclavable Mouthpieces 1,000 procedures x \$0.50 = \$500	Single-Use Mouthpieces 1,000 procedures x \$2.50 = \$2,500	Single-Use Mouthpieces <i>Autoclavable Mouthpieces not available</i> 1,000 procedures x \$2.75 = \$2,750
FIRST YEAR TOTAL With Autoclavable \$1,000	FIRST YEAR TOTAL With Single-Use \$3,000	FIRST YEAR TOTAL Single-Use Only \$4,045

**Save \$795 upfront (61%) and
 up to \$2,250 on consumables (82%) every year!**

THE DRYSHIELD ADVANTAGE

Performance

- Better retraction and firmer bite blocks
- Soft, flexible material that's more comfortable for patients
- Highly durable adapter with a simple built-to-last design
- Interchangeable bite blocks for more customized fit (autoclavable only)

Convenience

- The only system with both autoclavable and single-use mouthpiece options
- Faster installation within seconds
- Portable between operatories and practices
- Flexible fit for users of other isolation systems
