

Solmetex™

PowerSonic™

ULTRASONIC CLEANING SOLUTION

Advanced Cleaning Action

PowerSonic™ Ultrasonic Cleaning Solution is a patented, plant and mineral based, **100% enzyme free**, catalytic cleaner that super charges the action of your ultrasonic bath and instrument washer using nano-oxygen bubbles. The power comes from a naturally occurring technology platform that provides enhanced gas transfers, instantaneous odor elimination, and the breakdown of organic waste to essentially “eat up” any remaining contaminants.

Why Choose PowerSonic™?

- Effectively removes debris
- Rapidly removes protein — even without ultrasonic action
- Reduces ultrasonic bath sludge and odor
- Inhibits rust formation
- Supports bacterial digestion when aspirated into suction system
