

Introducing

*The Organization for Safety, Asepsis and Prevention (OSAP) recommends testing your water quarterly. MyCheck is designed as a screening tool for bacteria. For validated results and evidentiary reports, a third-party laboratory test should be used.*

## Fast and simple In-office water test.

### **CDC RECOMMENDS DENTAL OFFICES REGULARLY TEST WATERLINES FOR BACTERIA.**

MyCheck screens dental unit waterlines for bacteria and provides an estimated heterotrophic plate count (HPC) to confirm compliance with the CDC & EPA guidelines of  $\leq 500$ CFU/mL.

#### **WITH MYCHECK™**

- Results in 72 hours
- Affordable and easy to use
- Accurate, proven technology
- No overnight shipping required

Sold in boxes of 4 or 12 paddles, each MyCheck is individually packaged, sterilized, and ready for use.

#### **DID YOU FAIL A MYCHECK™ TEST?**

Next steps should be to shock your waterlines and then utilize a validated mail-in water test that delivers a detailed report on the exact bacteria count.

Item #	Description
MC-4	4-Pack of MyCheck paddle testers
