SolmeteX announces Townie Choice Award for 2013

SolmeteX is proud to announce that *Dental Town Magazine* has awarded the SolmeteX Hg5 a Townie Choice Award in the Amalgam Separator category for the eleventh consecutive year. The Townie Choice Award is based on end user's satisfaction of products in the dental industry.

Nick Mozzicato, SolmeteX CEO states, "SolmeteX is once again honored to have received the 2014 Townie Choice Award in the amalgam separator category. Receiving the Townie Choice validates that the Hg5 meets the ease of use, simplicity and end user satisfaction from the dental community. This award has gained prestige each year and it affirms why the Hg5 is the most installed amalgam separator in the United States."

As the leading amalgam separator manufacturer in North America, SolmeteX has consistently provided quality products for the dental industry. SolmeteX has sold more amalgam separators to the dental market than all other separator manufacturers combined. Our commitment to our customers extends with unmatched customer service and support. For additional information on the Hg5 series of amalgam separators or other product available by SolmeteX, talk to your favorite dental supply company or visit SolmeteX at www.solmetex.com.
