PRESS RELEASE

April 1, 2015

SolmetexX, the Industry leading Amalgam Separator Manufacturer Announces ISO 11143:2008 Certification

Northborough, MA-

SolmetexX is pleased to announce it has successfully completed and passed the ISO 11143:2008 standard through NSF International with 99.965% capture rate on its Hg5 amalgam separator system. This compliments our previous passing of the ISO 11143:1999E with 99.02% capture rate. The current report may be viewed online at www.SolmetexX.com

As a top-quality manufacturer of amalgam separators within United States and Canada, SolmetexX has been recognized by 16 dental associations as the preferred choice for their members. The Hg5 amalgam separator has received 12 consecutive Townie Choice awards, the 2013 and 2014 “Preferred Products” and a 5+ rating for “Editors’ Choice” by Dental Advisor make it the most awarded amalgam separator on the market. The Hg5 series of amalgam separators are proudly sold through our dealer network across North America.
