

Is Your Waterline Compliance Regimen **SMART?**

S SILVER BASED TREATMENTS
Silver's powerful antimicrobial properties while remaining non-oxidative make it the ideal active ingredient for dental waterline treatment.

M MANAGEABLE IFUs
Developed with efficiency in mind, Sterisil product IFUs require the minimum necessary to attain the advertised level of effectiveness.

A ACCURATE WATER TESTING OPTIONS
We know a false positive can ruin your day. Sterisil offers in-office and 3rd party mail-in testing options that inspire confidence.

R RELIABLE CUSTOMER SUPPORT
Whether in the field or over the phone, Sterisil field reps and customer support have your back. Our team of waterline experts is standing by when you need us.

T TRIED & TRUE METHODOLOGIES THAT WORK
With over 20 years in the dental waterline compliance market, we know the right combination of shock, treatment, and testing to deliver compliant handpiece water.

How do we make waterline compliance easy and reliable?

We make it **SMART!**

Over 20 years of developing dental waterline products has taught us that the right combination of routine shock treatments, water testing, and continuous maintenance treatment reliably delivers handpiece water with <500CFU/ml.

SMART Kits blend products and techniques across the multiple waterline product categories into one unified solution.
