

# Solmetex Solutions Center

The Complete EPA Regulatory Compliance Solution for Special Markets  
benefits

The Solmetex **My Solutions Center** was uniquely designed in partnership with one of the largest DSOs in the country to provide dental group organizations a tool to manage EPA Dental Rule compliance across all their dental practices nationwide.

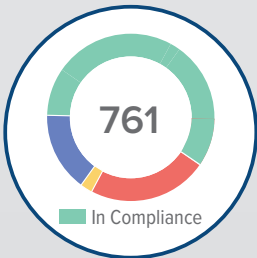

## My Solutions Center

Account management portal that provides real-time compliance data across all the practices in your network.

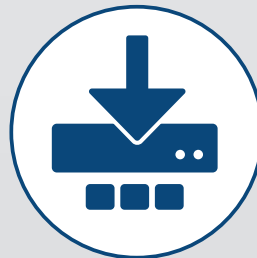

## Custom Territory Views

Custom account login with the views that fit your group's needs. National, regional or individual office logins allow you to manage your locations.

## Recycling Overview

Overall history of amalgam separator installation, plus recycling history of collection container and amalgam waste buckets across all practices.

## Account Reporting

Export dental practice account data to your desktop in Excel or PDF file formats.

## Solmetex Subscription Service

Maintain compliance nationwide by setting custom delivery schedules through your dealer/distributor partner of your choice.

## Recycling Certificates

Access to product shipping labels, Certificates of Installation and Certificates of Recycling, available 24/7/365 at NO CHARGE.

## Water Testing

Upload your dental water test results to track trends and ensure dental unit waterlines are safe and compliant.

## Support Cases

Check the status of your current Support Cases or report new ones to the support services team.
