

SHOCK TEST MAINTAIN

Citrisil® Dental Waterline Microbial Contaminant Control Tablet

ALL-IN-ONE

KEY FEATURES

- Cleans and maintains dental unit waterlines to ≤ 10 CFU/ml
- Shock tablets included to eliminate odor-causing bacteria
- Eliminates the need to empty bottles and purge lines at the end of each day
- Safe for dental equipment, patients, and staff
- Does not adversely affect composite bond strength
- Does not contain oxidizers like iodine or chlorine
- Available for bottles ranging from .70L through 2L bottles

Citrisil® Shock

- No messy liquids or mixing
- Most affordable at less than \$3.00/tablet
- Compatible with the Sterisil® Straw. No need for a dummy straw for easy shocking
- Cleans the inner surface of dental bottles
- Orange colorant makes the shock visually apparent in the bottle for easy visual flushing
- Chemically compatible with the Sterisil® Antimicrobial Bottle with built-in antimicrobial properties to protect the bottle

Matters™

Protect your patients and staff against bacteria

Citrisil™ is the only all-in-one shock and daily maintenance dental waterline tablet.

Orange Shock Tablet should be used monthly and left overnight to eliminate pre-existing odor causing bacteria.

White or Blue Maintenance Tablets should be used daily to continuously clean and maintain dental unit waterlines.

- Use a maintenance tablet each time a bottle is refilled
- The tablet effervesces and remains in the lines to prevent bacteria growth
